Glossary

Cookie: A cookie is a small text file that resides on your computer. Cookies are used to remember your settings when you revisit a website and to identify how visitors navigate the site.

Cookies provide valuable information to website owners to adapt and make changes to the site in order to improve the user experience.

Cookies are anonymous and contain no personal data. If you never register or leave personal information at a site, the only confirmation they give is that you are a returning visitor. The cookie will only contain information that you freely provide to a web site.

Name/Value: The first section of the cookie defines the name of the cookie and the value assigned to the cookie.

Type: A cookie can be persistent cookie or a session cookie.

Persistent cookie: A persistent cookie does not expire at the end of the user session /visit. As long as the cookie remains, data can be sent back to the server everytime the visitor visits the site. Persistent cookies allow for vital pieces of information, such as how the visitor first came to the website, to be recorded. Persistent cookies are also known as tracking cookies.

Session cookie: A session cookie / non-persistent only lasts for the duration of the user session/visit. The cookie is deleted at the end of the session by the browser.

1st party cookie: 1st party cookies are cookies set with the same domain (or subdomain) as the website. In the context of this audit, 1st party cookies are cookies that have been detected within the Header of the page.

3rd party cookie: 3rd party cookies are cookies set with a different domain than that of the website.

Other: In the context of this audit, "Other" cookies, are cookies that are set with the same domain as the website, but were not detected through the first check (i.e. in the Header). Therefore could be cookies set by 3rd parties via JavaScript.

Domain: The domain from which the cookie was set.

Expires: When the cookie is set to expire.
