

Stocklake Link Road

(urban)

Welcome

We are delighted to welcome you to this information event on the Stocklake Link Road (urban) [SLR(u)] highway improvement scheme, in conjunction with Barratt Homes. In December 2014, we set out the proposals for SLR(u) and invited your comments. We thank you for taking the time to provide feedback. All comments have been reviewed and considered when finalising the design of SLR(u).

We originally consulted with 185 residents and businesses along Stocklake and Park Street. The consultation closed on 12th January 2015 and we received **113 responses (61% response rate)**. Parking, landscaping, pedestrian facilities and junction reconfiguration were highlighted as the main areas for improvement and these have been reflected in the final design.
